

The Price List For TISCE Overseas Service Projects

No.	Function Name	Function Description	Price(USD)
1	Supplier Matching and Screening	We use big data intelligence to identify suppliers based on product needs, cost budget, and risks, screen them for compliance and reliability to mitigate legal risks, and identify qualified export factories to ensure your requirements are met.	\$30 per RFQ
2	Supplier Assessment	We leverage big data intelligence to assess suppliers past performance, analyze market dynamics, and gather feedback. Following this evaluation, we carefully shortlist 3-5 qualified candidate suppliers and proceed to issue Request for Quotation (RFQ) to them.	
3	Preliminary Quotation	Evaluate quotations provided by candidate suppliers, carefully weighing essential factors such as cost, quality, and shipping terms, and ultimately choose the most optimal supplier.	
4	Detailed Quotation	Expanding on the choice of the optimal supplier, following meaningful communication between both parties, we furnish a detailed and comprehensive quotation tailored to your specific requirements, quantity, and delivery timelines. Furthermore, we extend additional options by supplying direct contact information for the chosen suppliers, enhancing the ease of communication between all parties involved.	\$40 per RFQ
5	Production Progress Monitoring	After placing an order, we monitor production progress and provide real-time feedback through photos and live videos.	\$20 per shipment
6	Product Quality Inspection	Upon completing order products, we undertake a strict quality inspection process, ensuring product quality.	\$200 per shipment
7	Shipping Follow-Up	After factory shipment, a dedicated person in charge to monitor transportation and ensure timely and secure delivery.	\$20 per shipment
*8	Transit Warehousing	For transit warehousing in China, we provide efficient services for handling and transporting your goods.	\$50 per shipment
*9	Secondary Processing	If needed, we can negotiate and formulate detailed processing or packaging plans to meet your standards.	\$100 per shipment
*10	Inland Short-Haul	Adhering to EXW incoterm, we coordinate inland transportation in China and keep you informed of your goods' location and status throughout the process.	\$20 per shipment
*11	International Logistics	We maintain long-term partnerships with international logistics firms. In cases where the factory doesn't have a logistics provider, we can offer recommendations based on specific requirements and provide international logistics quotations.	\$20 per shipment
*12	Import Agency	We have a trusted long-term partnership with third-party logistics companies that can assist with import procedures, customs clearance, and ensure timely delivery of your goods.	Real-Time Quotation
*13	International Short-Haul Services	For certain products, we offer end-to-end services, including transportation, customs clearance, and distribution, ensuring seamless transport and delivery.	Real-Time Quotation
14	After-Sales Coordination	For any post-sales issues that may arise with any product, our service team will proactively and patiently coordinate and communicate with the supplier on your behalf until both parties' concerns are resolved.	\$20
15	Supplier Credit Research	Based on your requirements, we can conduct credit research on suppliers (you can specify suppliers or rely on our recommendations). This helps you gain comprehensive insights into the supplier's credit status, operational capabilities, and product quality, enabling wiser procurement decisions.	\$100 per report
16	China Market Research	We can conduct research through various channels based on your product/industry and provide relevant China market reports, helping you better understand the current status and trends in your target China industry or market.	\$300 per report
17	Factory Inspection Reports	We inspect specified factories, providing a comprehensive assessment and inspection reports.	\$100 per report
18	Product Quality Inspection Reports	Should you need professional third-party quality inspection reports, we provide comprehensive quality testing and evaluation services. Our aim is to furnish you with specialized quality inspection reports tailored to your requirements.	Real-Time Quotation

All-in-One Plan

Pricing: Service fee is **USD999**, valid for one year, excluding global trade data services and supply chain financing fees. This fee only covers the service fees generated by TISCE's provided services, while all other expenses incurred by third parties will be charged separately.

Outcome: Experience a streamlined and hassle-free import process through our tailored one-stop managed service. Our goal is to align our services with your needs, propelling your business toward greater success in a fiercely competitive market.

Note: We meticulously vet reliable suppliers in accordance with your requirements, ensuring quality and swift product processing. Our seamless warehousing and logistics ensure punctual, precise deliveries. We serve as your comprehensive support system, proactively addressing product issues and financial hurdles.
